

FOLSOM'S FREEDOM.

**Another Move Has Been Made Toward
Securing the Liberty of the For-
mer Albuquerque Banker—
An Appeal Taken.**

Another effort is being made to secure the release of S. M. Folsom, under a five years' sentence for making false entries in his report to the comptroller of the currency as to the condition of the wrecked Albuquerque National bank.

This time the move is in the shape of an appeal to the United States circuit court of appeals, the papers for which have been received by Supreme Court Clerk Wyllis. The petition for a writ of error, directed to the supreme court of this territory, recites Folsom's conviction, and the subsequent affirmance by the supreme court of New Mexico of the sentence imposed by Judge Collier. It alleges that numerous errors were made in the hearing of the case and prays that the record be sent up by the supreme court clerk of New Mexico, so that the errors complained of may be corrected. This petition signed by Folsom and his attorneys, Messrs. F. W. Clancy, N. B. Field and C. A. Willard, of Minneapolis, Minn., was presented to Judge Walter H. Sanborn, of the United States circuit court of appeals, at St. Paul, Minn., on November 7, and Judge Sanborn thereupon passed an order requiring the record to be sent up for an investigation of the alleged errors, on or before January 1, 1895. In this order the judge provides that the writ of error shall operate to suspend sentence until the matter is passed upon by the court of appeals, and that meanwhile Folsom may be released from the penitentiary upon giving bond in such an amount as may be satisfactory to the New Mexico supreme court or any justice thereof. The attorneys for Folsom are now arranging to get the bond necessary for his release; and as soon as this is done, the citation issued by Judge Sanborn will be served on the supreme court, Folsom will leave Superintendent Bergmann's charge, and the record in the case will be transmitted to the court of appeals for a decision. The result of this now noted case will be watched with much interest by the people of New Mexico.—New Mexican.

The voting population of this county has not decreased so much during the past two years as was predicted by some of the politicians. One old timer who has been a candidate for office a number of times predicted that the falling off would be between 400 and 500 but it was only 110.

The present term of court will be a short one on account of lack of money to pay expenses. A good many cases will, of necessity, go over to the next term.

A Big Eagle.

Last Friday Clark Rodgers shot one of the largest eagles ever seen in this part of the country. He found it on Whisky creek and shot it off hand with a rifle at a distance of 400 yards. On Saturday morning he brought it to town and presented it, with his compliments, to THE EAGLE. The noble bird was immediately taken to R. H. Speed, the taxidermist, to be mounted and in a few days it will grace THE EAGLE office. The bird measured 7½ feet from tip to tip and is said by many who have seen it to be the largest eagle they ever looked at.

Mr. Rodgers has the thanks of THE EAGLE for the very appropriate present which he made and he may be assured that the proud emblem of liberty will have the place of honor in THE EAGLE office, and that the donor will be kindly remembered by THE EAGLE.

Laizure & Grabe have taken advantage of the fine weather this month and have pushed the work on the normal school building as rapidly as possible. The building is now ready for the roof and will be completed before the time named in the contract unless there should be some unforeseen delays.

Eastern farmers would open their eyes in astonishment at the idea of cutting grass in November, but haymaking is still going on at the Munson ranch below town. Mr. Munson expects to deliver about 150 tons of hay to the government for use at Fort Bayard.

Col. Martin was out last week assisting in getting cattle together for shipment. He sold several hundred head recently and they are being shipped this week.

Wm. F. Lorenz went out bear hunting last week. He was in a bear country but didn't get sight of one.

Unusual in Vermont.

It is something unusual in this section for summer flowers to blossom until November, but such is the case this year. Strawberry blossoms are found in all directions, and we have a bouquet on our desk sent to this office by Mr. Lyon, which contains, among other flowers, the daisy, buttercup and clover, which have lately figured so conspicuously in the contest for a state flower.—Essex (Vt.) Eagle.

Scarcity of water has interfered with the operation of many of the mills in this part of New Mexico for some weeks past and the output of bullion is much smaller than it would be if there could be water enough obtained to keep the mills going steadily.

The Silver City opera company played the Little Tycoon for the third time last Thursday evening. The attendance was good and this is perhaps the best evidence that the people of Silver City thoroughly appreciate a good entertainment.

A train load of cattle was shipped from this place last Sunday. They were L. C's and other brands. During the week it is expected that about 3,000 head will be shipped, mostly from the ranges in the western part of the county.

Aaron Schutz shipped a stock of goods out to Mogollon last week. He will open a store in the Wilkie building and B. Rosenfelt, who has been with Mr. Schutz here, will be the manager of the branch line.

A telephone line from this place to Mogollon is one of the enterprises now in project. The cost of the line is being figured on.

Henry Carter is being initiated into the mysteries of the Silver City post-office.
